PREFACE

We are experiencing the excitement and happiness of having Our first e-bulletin -which we launched as the Vocational School of Health Services- being published. This first issue that covers the academic, administrative and Sharing student-focused activities with both our internal stakeholders and a wider audience is an important step.

Our e-bulletin covers social responsibility issues from education and training processes projects carried out in many fields, from scientific studies to student activities makes activities visible; the dynamic structure, productivity and collaboration of our school reflects its culture. Especially with the devoted efforts of our academic and administrative staff, content documenting the active participation of our students makes this publication not only informative but also turns it into an inspiring platform.

A great deal of work was done during the preparation of the first issue. There is labor and cooperation. Content selection, design and content selection carried out meticulously by our editorial team editing work; It has gained meaning with all academic-administrative staff and students who contributed to its support. We would like to sincerely thank everyone who contributed to this occasion.

Our e-bulletin helps reinforce corporate belonging, strengthen communication and promote success. With the feedback we'll receive from our first issue, we aim to include richer content, wider participation and more interaction in our issues. We aim to continuously improve the publication.

Acting with the vision of providing quality education in the field of health our school regularly announcements of both its academic achievements and social contributions to the public and the periodic publishing of our E-buletin board as communication tool will continue. We would like to thank all our readers who read our first issue with interest and support, we hope to be together in our future issues.

With our love and respect

Prof. Dr. Nurhan GÜMRÜKÇÜOĞLU

• Dünya genelinde birinci sırada ağırlıklı olarak yenilenemeyen ve yakın zamanda tükenmesi beklenen petrol, doğalgaz ve kömür gibi çevreye zararlı olan doğal kaynaklardan karşılanmaktadır.

• Dünyanın enerji talebi yıllar geçtikçe artmaktadır.

• Enerji talebinin yenilenebilir enerji kaynakları gibi alternatif üretim yöntemleri ile birlikte var olan enerji kaynaklarının daha etkin kullanılması, enerji verimliliği kavramını ortaya çıkarmıştır.

• Enerji verimliliğine yönelik çabalar, ekonomiler üzerindeki enerji yükünü azaltırken, enerji arz güvenliği ve temiz çevreyi sağlama konusunda katkıları bulunmaktadır.

• Temiz enerji kaynaklarının kullanımı, ekonomi yöntemlerince dikkate alınmalı, gerekli teşvikler sağlanarak temiz enerji kaynaklarının kullanımı artırılmalıdır.

• Temiz enerji kaynaklarının kullanımı, enerji güvenliği, gelecek nesillerin devamı, doğanın korunması, ekosistemlerin devamlılığı, biyoçeşitliliğin sürdürülebilmesi, sürdürülebilir kalkınmanın sağlanması ve küresel ısınma ve olası iklim değişiklikleri gibi tehditlerle baş edilebilirliği açısından oldukça önem taşımaktadır.

• Ayrıca temiz enerji kullanımının artırılması ile ekonomilerin dışa bağımlılığı da azaltılabilecektir.

• Enerji problemlerinin çoğu rant sağlama, yatırımların doğru yapılması ve riskli projelerden kaynaklanmaktadır.

• Enerji problemlerinin çözümü için yenilenebilir üretime geçmek, %100 yenilenebilir enerjiye geçmek en temiz ve en doğru çözüm olacaktır.

• %100 yenilenebilir enerjiye geçiş için enerji sektöründeki kar-tarar tartışmalarını bir kenara bırakıp, verimliliği temel alan, bilimsel açıdan uygun, siyasal etkilerden yasalara korummuş bir enerji sistemi geliştirilmelidir.
